The FinTech 100 is the ranking of the top 100 global applications and service providers in the financial services market, which includes the banking, capital markets and insurance industries. All application categories specific to banking functions are included in this list such as core processing, branch, teller, ATM, credit card, mortgage origination, online banking, collections, cash management, trade finance, treasury services and funds transfer. Placement on the list is determined by annual revenues and the percentage of revenues exclusively attributed to financial services, along with a combination of surveys completed by vendors and original research conducted by IDC Financial Insights. The findings are compiled and published each November by *American Banker*, *Bank Technology News* and IDC Financial Insights.

"This ranking affirms our ability to deliver a unique combination of process excellence through our Smart Enterprise Processes (SEP<sup>SM</sup>) methodology, analytical insights and technology solutions – in concert with industry domain expertise and global delivery capabilities – for many of the world's leading banks, investment firms and insurance companies," **said Mohit Thukral, senior vice president, Banking, Financial Services, Insurance and Healthcare, Genpact.** "Through these capabilities, we have been helping many clients transform their operations to become more flexible and adaptive as they address evolving regulations and continued volatility in the global economic environment."

In the banking and financial services market, Genpact provides business process transformation and outsourcing (BPO) services, analytics, risk management, and technology solutions for commercial and retail banking, wealth management, mortgage services, and insurance. Genpact was recently named as a "Leader" and "Star Performer" on Everest Group's Global Banking Business BPO Market Report, and among the Best 20 Leaders in Financial Services on the IAOP's Global Outsourcing 100 list. Genpact serves major companies in the capital markets industry, including 9 of the world's top 10 investment banks, by providing [business and domain consulting, technology solutions, process re-engineering, analytics, application development and maintenance, and operations services.](#)
