

## Genpact Reports Results for the First Quarter of 2016

Revenues of \$610 Million, Up 4% (~6% on a constant currency basis)

Global Client BPO Revenues of \$406 Million, Up 9% (~12% on a constant currency basis)

Adjusted Diluted EPS of \$0.31, Up 30%

NEW YORK, May 5, 2016 /[PRNewswire](#)/ -- Genpact Limited (NYSE: G), a global leader in digitally-powered business process management and services, today announced financial results for the first quarter ended March 31, 2016.

### Key Financial Results – First Quarter 2016

- Total revenue was \$609.7 million, up 4% year over year (up ~6% on a constant currency basis).
- Income from operations was \$75.6 million, up 2% year over year, and adjusted income from operations was \$85.4 million, up 2% year over year, with an adjusted income from operations margin of 14.0%.
- Diluted earnings per share were \$0.27, up 36% year over year, and adjusted diluted earnings per share were \$0.31, up 30% year over year.
- Genpact repurchased approximately 1.4 million of its common shares during the quarter at an average price of \$24.35 per share for a total of \$33 million under its \$500 million share repurchase program. Since the inception of this program in February 2015, Genpact has repurchased 11.2 million of its shares at an average price of \$23.16 per share for a total of \$260 million.

"We delivered solid first quarter results, driven by continued strong momentum in our core Global Client BPO business in a challenging global economy," said N.V. "Tiger" Tyagarajan, Genpact's president and CEO. "I believe we are in a better position today than we have ever been to meet the transformational needs of our clients, particularly in a world that is changing at a rapid pace. Our highly differentiated Lean Digital<sup>SM</sup> approach, which delivers the full power of digital focused on mid and back office operations, is resonating in the marketplace as we are being invited to more and more CXO-led transformation conversations. In addition, we believe Lean Digital<sup>SM</sup> is expanding our addressable market in our chosen verticals, service lines and geographic markets, and enabling faster and greater client penetration than previously possible."

### Revenue Details – First Quarter 2016

- Revenue from Global Clients was \$502 million, up 6% year over year (up ~9% on a constant currency basis), representing approximately 82% of total revenues.
- Revenue from GE was \$107 million, down 5% year over year, representing approximately 18% of total revenues.
- Total BPO revenue was \$489 million, up 6% year-over-year, representing approximately 80% of total revenues.
- Global Client BPO revenue was \$406 million, up 9% year over year (up ~12% on a constant currency basis).
- GE BPO revenue was \$83 million, down 7% year over year.
- Total IT revenue was \$121 million, down 4% year over year, representing approximately 20% of total revenues.
- Global Client IT revenue was \$96 million, down 5% year over year.
- GE IT revenue was \$25 million, down 2% year over year.

During the first quarter ended March 31, 2016, GE divested certain businesses that Genpact continues to serve. Historically we have reclassified revenues from these divested GE businesses as Global Client revenues in each fiscal quarter beginning on the date of divestiture. However, we will now reclassify such revenue as Global Client revenue only at the end of each fiscal year. We believe that this change allows us to provide a more consistent view of the trends underlying our Global Client and GE businesses. If we had reclassified the revenue from such GE-divested businesses during the first quarter, Global Client revenues for the quarter ended March 31, 2016 would have been \$513 million and GE revenues would have been \$96 million.

### Cash Flow from Operations

- We utilized \$12 million of cash from operations in the first quarter of 2016, compared to generating \$24 million in cash from operations in the first quarter of 2015.

### Other Metrics as of March 31, 2016

- For the 12-month period ended March 31, 2016, the number of our client relationships generating annual revenue over \$5 million increased to 105 from 94 as of March 31, 2015. This includes client relationships generating more than \$15 million in annual revenue increasing to 34 from 30, and client relationships generating more than \$25 million in annual revenue increasing to 18 from 17 over the same period.

- Genpact's employee attrition rate for the quarter was approximately 25%, measured from the first day of employment, compared to 28% for the same period in 2015.

## 2016 Outlook

Genpact expects:

- Total revenue for 2016 to be in the range of \$2.62 to \$2.66 billion, which represents a constant currency growth range of 8% to 10%;
- Global Client revenue growth to be in a range of 12.5% to 14% on a constant currency basis;
- Adjusted income from operations margin to be approximately 15.5%; and
- Adjusted EPS of \$1.40 to \$1.42.

## Conference Call to Discuss Financial Results

### Reconciliation of Non-GAAP Financial Measures to GAAP Measures

*To supplement the consolidated financial statements presented in accordance with GAAP, this press release includes the following measures defined by the Securities and Exchange Commission as non-GAAP financial measures:*

- *Adjusted income from operations;*
- *Adjusted net income attributable to shareholders of Genpact Limited, or adjusted net income; and*
- *Adjusted diluted earnings per share attributable to shareholders of Genpact Limited, or adjusted diluted earnings per share.*

*These non-GAAP financial measures are not based on any comprehensive set of accounting rules or principles and should not be considered a substitute for, or superior to, financial measures calculated in accordance with GAAP, and may be different from non-GAAP financial measures used by other companies. Accordingly, these non-GAAP financial measures, the financial statements prepared in accordance with GAAP and the reconciliations of Genpact's GAAP financial statements to such non-GAAP financial measures should be carefully evaluated.*

*Prior to July 2012, Genpact's management used financial statements that excluded significant acquisition-related expenses, amortization of related acquired intangibles, and amortization of acquired intangibles at the company's formation in 2004 for its internal management reporting, budgeting and decision making purposes, including comparing Genpact's operating results to that of its competitors. However, considering Genpact's frequent acquisitions of varying scale and size, and the difficulty in predicting expenses relating to acquisitions and the amortization of acquired intangibles thereof, since July 2012 Genpact's management has used financial statements that exclude all acquisition-related expenses and amortization of acquired intangibles for its internal management reporting, budgeting and decision making purposes, including comparing Genpact's operating results to that of its competitors. Acquisition-related expenses are excluded in the period in which an acquisition is consummated.*

*Additionally, Genpact's management uses financial statements that exclude stock-based compensation expense. Because of varying available valuation methodologies, subjective assumptions and the variety of award types that companies can use when adopting ASC 718 "Compensation-Stock Compensation," Genpact's management believes that providing non-GAAP financial measures that exclude such expenses allows investors to make additional comparisons between Genpact's operating results and those of other companies. Genpact also believes that it is unreasonably difficult to provide its financial outlook in accordance with GAAP for a number of reasons, including, without limitation, its inability to predict its stock-based compensation expense under ASC 718, the amortization of intangibles associated with further acquisitions and acquisition-related expenses. Accordingly, Genpact believes that the presentation of adjusted income from operations and adjusted net income, when read in conjunction with the Company's reported results, can provide useful supplemental information to investors and management regarding financial and business trends relating to its financial condition and results of operations.*

*A limitation of using adjusted income from operations and adjusted net income versus income from operations and net income calculated in accordance with GAAP is that these non-GAAP financial measures exclude a recurring cost, namely stock-based compensation. Management compensates for this limitation by providing specific information on the GAAP amounts excluded from adjusted income from operations and adjusted net income.*

The following tables show the reconciliation of these adjusted financial measures from GAAP for the three months ended March 31, 2015 and 2016:
