

Genpact Selected to Assist in Transforming Hyatt's Global Finance and Accounting Operations

Companies' expanded relationship now includes Europe, Africa, Middle East, Asia; new global business model leverages digital technology to automate and standardize processes to support Hyatt's growth

NEW YORK, Dec. 21, 2016 /PRNewswire/ -- Genpact (NYSE: G), a global leader in digitally-powered business process management and services, today announced plans to expand its finance and accounting (F&A) relationship with Hyatt to transform Hyatt's financial operations in Europe, Africa, Middle East and Asia.

As part of the multi-year engagement, Genpact will seek to globalize its business model for Hyatt's F&A organization that centralizes and standardizes processes for procure-to-pay, record-to-report, and order-to-cash operations. This expanded model will help scale Hyatt's finance operations by improving productivity. The contract expansion builds on a relationship that began in 2008 when the two companies worked together to drive F&A transformation at Hyatt's North American properties.

"Our expanded work with Genpact underscores the benefits we've realized in our North America hotel F&A operations, and we look forward to similar success in other regions," **said Patrick Grismer, Chief Financial Officer , Hyatt Hotels Corporation.** "Genpact's deep domain experience in F&A, coupled with its digital solutions and process expertise, continues to help Hyatt increase the value delivered by the finance function."

The engagement leverages Genpact's Lean DigitalSM approach that harnesses the combined power of process-centric technologies, design thinking methodologies, and domain expertise. Digital tools such as robotic process automation and optical character recognition in multiple languages will drive greater agility and transparency. Genpact and Hyatt expect to increase productivity substantially for the F&A activities in the newly expanded scope.

"The hospitality industry's increasingly competitive environment dictates that F&A operations drive greater value. Our global model and robust reporting capabilities deliver more efficient F&A operations, which positions the finance organization as a more strategic partner to business teams," **said Patrick Cogny, senior vice president and business leader, Infrastructure, Manufacturing and Services, and High Tech, Genpact.**
