NEW YORK, Aug. 9, 2023 /PRNewswire/ -- Genpact Limited (NYSE: G), a global professional services firm focused on delivering outcomes that transform businesses, today announced financial results for the second quarter ended June 30, 2023.

"Our strong bookings momentum continued during the second quarter. We currently expect 2023 full-year bookings growth of 25% to 30% driven by large deal and new logo wins. This positions us for strong top-line growth in 2024 and beyond. Along with a great bookings quarter, our adjusted operating income margin, adjusted diluted EPS, and cash flow from operations all exceeded our expectations," said **"Tiger" Tyagarajan, Genpact's President and CEO**. "Cost reduction and digital transformation continue to remain high priorities for our clients, who are increasingly turning to us to help accelerate their data journeys, paving the way for us to deliver more value to them through AI-augmented, end-to-end services."

### Key Financial Highlights – Second Quarter 2023

- Total revenue was \$1.106 billion, up 2% year-over-year (3% constant currency).<sup>1,2</sup>
- Revenue from Data-Tech-AI services was \$501 million, up 2% year-over-year (3% constant currency),<sup>1,2</sup> representing 45% of total revenue.
- Revenue from Digital Operations services was \$605 million, up 1% year-over-year (2% constant currency),<sup>1</sup> representing 55% of total revenue.
- Net income was \$116 million, up 62% year-over-year, with a corresponding margin of 10.5%.
- Income from operations was \$157 million, up 43% year-over-year, with a corresponding margin of 14.2%. Adjusted income from operations was \$186 million, up 2% year-over-year, with a corresponding margin of 16.8%.<sup>4,5</sup>
- Diluted earnings per share was \$0.63, up 66% year-over-year, and adjusted diluted earnings per share<sup>3</sup> was \$0.72, up 3% year-over-year.
- Cash generated from operations was \$171 million, up from \$102 million in the second quarter of 2022.
- Genpact repurchased approximately 3.2 million of its common shares during the quarter for total consideration of approximately \$120 million at an average price per share of \$37.68.

<sup>1</sup> Revenue growth on a constant currency basis is a non-GAAP measure and is calculated by restating current-period activity using the prior fiscal period's foreign currency exchange rates adjusted for hedging gains/losses in such period.

<sup>2</sup> Total revenue and revenue from Data-Tech-AI services in the second quarter of 2022 included \$5 million of revenue associated with a business previously classified as held for sale.

<sup>3</sup> Adjusted diluted earnings per share is a non-GAAP measure. A reconciliation of GAAP diluted earnings per share to adjusted diluted earnings per share is attached to this release.

<sup>4</sup> Income from operations and diluted earnings per share in the second quarter of 2022 included a \$39 million restructuring charge related to lease impairment charges and employee severance costs as well as a \$7 million loss incurred on the sale of a business previously classified as held for sale. These items were excluded from adjusted income from operations and adjusted diluted earnings per share in the second quarter of 2022. Income from operations and diluted earnings per share in the second quarter of 2023 include a \$5 million gain on the termination of a lease which was impaired as part of the restructuring charge taken in the second quarter of 2022. This gain is therefore excluded from adjusted income from operations and adjusted diluted earnings per share in the second quarter of 2023.

<sup>5</sup> Adjusted income from operations margin in the second quarter of 2022 was derived by adjusting total revenue to exclude \$5 million of revenue associated with a business previously classified as held for sale.

### Full Year 2023 Outlook

Genpact now expects:

- Total revenue in the range of \$4.59 billion to \$4.64 billion, up 5.0% to 6.0% year-over-year, or 5.5% to 6.5% year-over-year on a constant currency basis, compared to the prior full-year outlook in the range of \$4.64 billion to \$4.71 billion, up 6.0% to 7.5% year-over-year, or 6.5% to 8.0% on a constant currency basis.<sup>1</sup>
- Adjusted diluted EPS<sup>6</sup> in the range of \$2.91 to \$2.94, compared to the prior range of \$2.92 to \$2.99.

Genpact continues to expect:

- Adjusted income from operations<sup>7</sup> margin of approximately 16.8%.

#### Non-GAAP Financial Measures

To supplement the consolidated financial statements presented in accordance with GAAP, this press release includes the following non-GAAP financial measures:

- Adjusted income from operations;

- Adjusted income from operations margin;
- Adjusted diluted earnings per share; and
- Revenue growth on a constant currency basis.

These non-GAAP financial measures are not based on any comprehensive set of accounting rules or principles and should not be considered a substitute for, or superior to, financial measures calculated in accordance with GAAP, and may be different from non-GAAP financial measures used by other companies. Accordingly, these non-GAAP financial measures, the financial statements prepared in accordance with GAAP and the reconciliations of Genpact's GAAP financial statements to such non-GAAP financial measures should be carefully evaluated.

Given Genpact's acquisitions of varying scale and size, and the difficulty in predicting expenses relating to acquisitions and the amortization of acquired intangibles thereof, since July 2012 Genpact's management has used financial statements that exclude all acquisition-related expenses and amortization of acquired intangibles for its internal management reporting, budgeting and decision-making purposes, including comparing Genpact's operating results to those of its competitors. For the same reasons, since April 2016, Genpact's management has excluded the impairment of acquired intangible assets from the financial statements it uses for internal management purposes. Acquisition-related expenses are excluded in the period in which an acquisition is consummated. Genpact's management also uses financial statements that exclude stock-based compensation expense. Because of varying available valuation methodologies, subjective assumptions and the variety of award types that companies can use when adopting ASC 718 "Compensation-Stock Compensation," Genpact's management believes that providing non-GAAP financial measures that exclude such expenses allows investors to make additional comparisons between Genpact's operating results and those of other companies.

During the second quarter of 2022, Genpact (a) initiated restructuring measures and, as a result, recorded a charge related to i) right-of-use lease assets and other assets related to certain abandoned leased office properties and ii) employee severance costs resulting from a focused reduction in Genpact's workforce and (b) approved a plan to divest a business that was no longer deemed strategic. Given the specialized nature of this business, we anticipated completing a transaction within twelve months after the end of the second quarter of 2022, and therefore, we classified the revenues and expenses related to this business as held for sale with effect from April 1, 2022. During the first quarter of 2023, the Company consummated this transaction and recorded a loss on the sale of the business. During the second quarter of 2023, the Company terminated a lease for office property which was fully impaired as part of a restructuring in the second quarter of 2022, as discussed above, and recorded a gain on such lease termination as restructuring income in the second quarter of 2023. Genpact's management believes that excluding these restructuring charges, the loss on the sale of the business previously classified as held for sale, the revenues and expenses associated with such business, and the gain on the lease termination in calculating its non-GAAP financial measures provides useful information to both management and investors regarding the Company's financial performance and underlying business trends. Additionally, in its calculations of non-GAAP financial measures, Genpact's management has adjusted foreign exchange gains and losses, interest income and expense and income tax expenses from GAAP net income, and other income and expenses, and certain gains from GAAP income from operations, because management believes that the Company's results after taking into account these adjustments more accurately reflect the Company's ongoing operations. In its calculations of adjusted diluted earnings per share, Genpact's management adds back stock-based compensation expense, amortization and impairment of acquired intangible assets, acquisition-related expenses and the related tax impact of such adjustments from GAAP diluted earnings per share. For the purpose of calculating adjusted diluted earnings per share, the combined current and deferred tax effect is determined by multiplying each pre-tax adjustment by the applicable statutory income tax rate.

Genpact's management provides information about revenues on a constant currency basis so that the revenues may be viewed without the impact of foreign currency exchange rate fluctuations compared to prior fiscal periods, thereby facilitating period-to-period comparisons of the Company's true business performance. Revenue growth on a constant currency basis is calculated by restating current-period activity using the prior fiscal period's foreign currency exchange rates adjusted for hedging gains/losses in such period.

Accordingly, Genpact believes that the presentation of adjusted income from operations, adjusted income from operations margin, adjusted diluted earnings per share and revenue growth on a constant currency basis, when read in conjunction with the Company's reported results, can provide useful supplemental information to investors and management regarding financial and business trends relating to its financial condition and results of operations.

A limitation of using adjusted income from operations and adjusted income from operations margin versus income from operations, income from operations margin, net income and net income margin calculated in accordance with GAAP is that these non-GAAP financial measures exclude certain recurring costs and certain other charges, namely stock-based compensation expense and amortization and impairment of acquired intangible assets. Management compensates for this limitation by providing specific information on the GAAP amounts excluded from adjusted income from operations and adjusted income from operations margin.

The following tables show the reconciliation of these non-GAAP financial measures to the most directly comparable GAAP measures for the three and six months ended June 30, 2022 and 2023:
