NEW YORK, Feb. 6, 2025 /PRNewswire/ -- Genpact Limited (NYSE: G), a global advanced technology services and solutions company, today announced financial results for the fourth quarter and full year ended December 31, 2024.

"We delivered another strong quarter to close out what has been an outstanding year for Genpact. Q4 revenue grew 9% with Data-Tech-AI up 12%, driving accelerating revenue growth. For the full year, revenue grew 6.5%, with adjusted EPS growth of 10%, consistent with our long-term objective of growing adjusted EPS faster than revenue. We also delivered record new bookings of \$5.7 billion, up 15%, building on exceptionally strong new bookings in 2023," said **Balkrishan "BK" Kalra, Genpact's President and CEO**. "Looking ahead, we are incredibly excited about the future as we accelerate the pace of innovation and change at Genpact. Building on our industry-specific domain expertise, our investment in Data, AI and Agentic Solutions is positioning us as a clear leader in AI-driven transformation and driving superior value for our clients."

The newly approved quarterly dividend represents a planned annual dividend of \$0.68 per common share, increased from \$0.61 per common share in 2024.

Outlook

Genpact's outlook for the full year 2025 is as follows:

- Net revenues in the range of \$5.029 billion to \$5.125 billion, representing year-over-year growth of approximately 5.5% to 7.5% as reported, or 6.2% to 8.2% on a constant currency basis.¹
 - Data-Tech-AI net revenues growth of approximately 6.2% year-over-year and Digital Operations net revenues growth of approximately 6.8% year-over-year as reported at the midpoint of the range.
 - Data-Tech-AI net revenues growth of approximately 6.4% year-over-year and Digital Operations net revenues growth of approximately 7.9% year-over-year on a constant currency basis¹ at the midpoint of the range.
- Gross margin of approximately 36.0%.
- Adjusted income from operations margin⁹ of approximately 17.3%.
- Adjusted diluted EPS¹⁰ in the range of \$3.52 to \$3.59.

Genpact's outlook for the first quarter of 2025 is as follows:

- Net revenues in the range of \$1.202 billion to \$1.213 billion, representing year-over-year growth of approximately 6.2% to 7.2% as reported, or 7.1% to 8.1% on a constant currency basis.¹
 - Data-Tech-AI net revenues growth of approximately 9.8% year-over-year and Digital Operations net revenues growth of approximately 4.1% year-over-year as reported at the midpoint of the range.
 - Data-Tech-AI net revenues growth of approximately 10.0% year-over-year and Digital Operations net revenues growth of approximately 5.4% year-over-year on a constant currency basis¹ at the midpoint of the range.
- Gross margin of approximately 35.0%.
- Adjusted income from operations margin⁹ of approximately 16.5%.
- Adjusted diluted EPS¹⁰ in the range of \$0.79 to \$0.80.

Our outlook for the first quarter and full year 2025 reflects foreign currency exchange rates as of January 30, 2025.

¹ Revenue growth on a constant currency basis is a non-GAAP measure and is calculated by restating current-period activity using the prior fiscal period's foreign currency exchange rates adjusted for hedging gains/losses in such period.

² Net revenues and Data-Tech-AI net revenues for the full year 2023 include \$0.5 million of revenue associated with a business classified as held for sale.

³ Both on an as reported and constant currency basis.

⁴ Genpact updated the classification of certain revenues from Digital Operations to Data-Tech-AI in the quarter ended March 31, 2024 to more accurately reflect the nature of, and mode of delivery for, the services provided, which have evolved over time. As a result, the revenue from Digital Operations and Data-Tech-AI for the full year 2023 originally reported was \$2.48 billion and \$1.99 billion, respectively, which is \$2.39 billion and \$2.09 billion, respectively, in accordance with the updated classification. The numbers presented in this release for Data-Tech-AI net revenues and Digital Operations net revenues may not add up precisely to the total net revenues provided due to rounding.

⁵ Adjusted diluted earnings per share is a non-GAAP measure. A reconciliation of GAAP diluted earnings per share to adjusted diluted earnings per share is attached to this release.

⁶ During the quarter and full year ended December 31, 2023, Genpact completed an intercompany transfer of certain intellectual property rights from non-US to US wholly-owned subsidiaries, which resulted in a non-recurring tax benefit of \$170 million. Net income and diluted earnings per share for the quarter and full year ended December 31, 2023 included this benefit. This benefit was excluded from adjusted diluted earnings per share and adjusted income from operations for the quarter and year ended December 31, 2023.

⁷ Adjusted income from operations and adjusted income from operations margin are non-GAAP measures. Reconciliations of each of GAAP income from operations and GAAP net income to adjusted income from operations and GAAP income from operations margin and GAAP net income margin to adjusted income from operations margin are attached to this release. Adjusted income from operations margin for the full year 2023 was derived by adjusting total revenue to exclude \$0.5 million of revenue associated with a business previously classified as held for sale.

⁸ New bookings, an operating measure, represents the total contract value of new contracts and certain renewals, extensions and changes to existing contracts. Regular renewals of contracts with no change in scope are not counted as new bookings. Prior to 2024, new bookings of contracts with longer than five-year terms were limited to the total contract value of the initial five-year term. In 2024, Genpact updated its definition of new bookings to eliminate the five-year limitation. New bookings as reported for the full year 2023 were \$4.9 billion and would have been \$5.0 billion in accordance with the new definition. New bookings for the full year 2024 as reported are \$5.7 billion and would have been \$5.4 billion in accordance with the prior definition.

⁹ Adjusted income from operations margin is a non-GAAP measure. A reconciliation of the outlook for each of GAAP income from operations margin and GAAP net income margin to adjusted income from operations margin is attached to this release.

¹⁰ Adjusted diluted earnings per share is a non-GAAP measure. A reconciliation of the outlook for GAAP diluted earnings per share to adjusted diluted earnings per share is attached to this release.

Non-GAAP Financial Measures

To supplement the consolidated financial statements presented in accordance with GAAP, this press release includes the following non-GAAP financial measures:

- *Adjusted income from operations;*
- *Adjusted income from operations margin;*
- *Adjusted diluted earnings per share; and*
- *Revenue growth on a constant currency basis.*

These non-GAAP financial measures are not based on any comprehensive set of accounting rules or principles and should not be considered a substitute for, or superior to, financial measures calculated in accordance with GAAP, and may be different from non-GAAP financial measures used by other companies. Accordingly, these non-GAAP financial measures, the financial statements prepared in accordance with GAAP and the reconciliations of Genpact's GAAP financial statements to such non-GAAP financial measures should be carefully evaluated.

Given Genpact's acquisitions of varying scale and size, and the difficulty in predicting expenses relating to acquisitions and the amortization of acquired intangibles thereof, since July 2012 Genpact's management has used financial statements that exclude all acquisition-related expenses and amortization of acquired intangibles for its internal management reporting, budgeting and decision-making purposes, including comparing Genpact's operating results to those of its competitors. For the same reasons, since April 2016, Genpact's management has excluded the impairment of acquired intangible assets from the financial statements it uses for internal management purposes. Acquisition-related expenses are excluded in the period in which an acquisition is consummated. Genpact's management also uses financial statements that exclude stock-based compensation expense. Because of varying available valuation methodologies, subjective assumptions and the variety of award types that companies can use when adopting ASC 718 "Compensation-Stock Compensation," Genpact's management believes that providing non-GAAP financial measures that exclude such expenses allows investors to make additional comparisons between Genpact's operating results and those of other companies.

During the second quarter of 2022, Genpact approved a plan to divest a business that was no longer deemed strategic. Given the specialized nature of this business, we anticipated completing a transaction within twelve months after the end of the second quarter of 2022, and therefore, we classified the revenues and expenses related to this business as held for sale with effect from April 1, 2022. During the first quarter of 2023, the Company consummated this transaction and recorded a loss on the sale of the business. During the second quarter of 2023, the Company terminated a lease for office property which was fully impaired as part of a restructuring in the second quarter of 2022 and recorded a gain on such lease termination as restructuring income in the second quarter of 2023. During the fourth quarter of 2023, Genpact completed an intercompany transfer of certain intellectual property rights from non-US to US wholly-owned subsidiaries, which resulted in a non-recurring tax benefit of \$170 million. Genpact's management believes that excluding the loss on the sale of the business previously classified as held for sale, the revenues and expenses associated with such business, the gain on the lease termination and the non-recurring tax benefit on the transfer of intellectual property rights in calculating its non-GAAP financial measures provides useful information to both management and investors regarding the Company's financial performance and underlying business trends. Additionally, in its calculations of non-GAAP financial measures, Genpact's management has adjusted foreign exchange gains and losses, interest income and expense and income tax expenses from GAAP net income, and other income and expenses, and certain gains from GAAP income from operations, because management believes that the Company's results after taking into account these adjustments more accurately reflect the Company's ongoing operations. In its calculations of adjusted diluted earnings per share, Genpact's management adds back stock-based compensation expense, amortization and impairment of acquired intangible assets, and acquisition-related expenses along with the related tax impact of other adjustments and excludes the non-recurring tax benefit on the transfer of intellectual property rights from GAAP diluted earnings per share. For the purpose of calculating adjusted diluted earnings per share, the combined current and deferred tax effect is determined by multiplying each pre-tax adjustment by the applicable statutory income tax rate.

Genpact's management provides information about revenues on a constant currency basis so that the revenues may be viewed without the impact of foreign currency exchange rate fluctuations compared to prior fiscal periods, thereby facilitating period-to-period comparisons of the Company's true business performance. Revenue growth on a constant currency basis is calculated by restating current-period activity using the prior fiscal period's foreign currency exchange rates adjusted for hedging gains/losses in such period.

Accordingly, Genpact believes that the presentation of adjusted income from operations, adjusted income from operations margin, adjusted diluted earnings per share and revenue growth on a constant currency basis, when read in conjunction with the Company's reported results, can provide useful supplemental information to investors and management regarding financial and business trends relating to its financial condition and results of operations.

A limitation of using adjusted income from operations and adjusted income from operations margin versus income from operations, income from operations margin, net income and net income margin calculated in accordance with GAAP is that these non-GAAP financial measures exclude certain recurring costs and certain other charges, namely stock-based

compensation expense and amortization and impairment of acquired intangible assets. Management compensates for this limitation by providing specific information on the GAAP amounts excluded from adjusted income from operations and adjusted income from operations margin.
